Department of Neurological Surgery

Robert A. Solomon, M.D., F.A.C.S.

Byron Stookey Professor of Neurosurgery and Chair

At the Department of Neurological Surgery at Columbia University Medical Center and New York-Presbyterian Hospital, exceptional patient care, innovative research and leading technology converge in a challenging academic environment to create a world-class center for neurological diseases. We continue the century long tradition of the Neurological Institute of New York, providing neurosurgical services to meet the diverse needs of our patients. Our dedicated team of experienced surgeons and staff offer patients an array of cutting edge treatments that have revolutionized the field of neurosurgery. Our goal is to provide state of the art treatments for our patients by staying on the leading edge of translational research in neurological disorders. We are dedicated to providing world class teaching to our residents and medical students, to train the next generation of leaders in the field.
