Department of Pediatrics

Lawrence Stanberry, MD
Reuben S. Carpentier Professor of Pediatrics & Chair

The focus of the Department of Pediatrics of Pediatrics has not changed in 120 years. We are here to make a difference in the lives of children by providing high quality, compassionate care, educating young physicians, and advancing knowledge through basic science and clinical research.

The Department of Pediatrics offers a comprehensive range of services at our main location at the Morgan Stanley Children's Hospital of NewYork-Presbyterian. Our close collaborations with the Department of Obstetrics and Gynecology and with our colleagues in the pediatric surgical specialties assure a continuum of care for every patient treated in our facility.

Primary care and specialty services are also available at a number of sites throughout the metropolitan area.
