Department of Surgery

Craig R. Smith, M.D., F.A.C.S.

Calvin F. Barber Professor of Surgery and Interim Chair

Welcome to the Columbia University Department of Surgery. Our fundamental mission is excellence in clinical care, teaching, and research. Our interdisciplinary approach assures that patients receive the best possible care in close collaboration with referring physicians.

Over the past twenty years the Department of Surgery has evolved from a loose federation of private practices to a sophisticated network of creative alliances. Collaboration with medical and scientific experts at Columbia University and globally, as well as with the biotech industry, has resulted in many "firsts" and enhanced our reputation for providing the highest quality patient care.

Our reputation for innovation and the very best patient care has resulted in a burgeoning caseload. The Department of Surgery now performs more than 12,000 operations annually, and our clinical revenue has risen from \$27 million to \$45 million in the past five years.

Our specialties include:

- Breast
- Cardiac
- Colorectal
- Endocrine
- General Surgery
- Kidney
- Liver
- Obesity
- Pancreas
- Pediatric
- Plastic & Reconstructive
- Surgical Oncology
- Thoracic
- Transplant
- Vascular
- Wound Healing

What we're learning with each passing day is that what we're capable of achieving is nothing short of breathtaking.
